

**THURSDAY 21 MAY  
DAY 2**

Room 1	Room 2	Room 3
Registration and refreshments		
<b>Cutting &amp; Drilling</b>	<p style="text-align: center;"><b>Systems &amp; Automation</b></p> <p>Systems and automation in laser material processing</p> <p><i>Jones, T. Cyan Tec Systems</i></p>	<p style="text-align: center;"><b>Surface Engineering</b></p> <p>TBA</p> <p><i>Liu, Z. University of Manchester</i></p>
Refreshments		
<p style="text-align: center;"><b>Welding (2)</b></p> <p>cont.</p>	<p style="text-align: center;"><b>Sources &amp; Beam Delivery</b></p> <p>Femtosecond laser applications and benefits for surface texturing and micromachining applications</p> <p><i>Gertus, T. Light Conversion</i></p>	<p style="text-align: center;"><b>Ablation &amp; Micromachining</b></p> <p>In depth laser engraving</p> <p><i>Aminidis, A. ACSYS Lasertechnik</i></p>
Lunch		
<b>Plenary 3: Future prospects for laser material processing</b> <b>Bill O'Neill (University of Cambridge)</b>		
<b>Plenary 4: Milestones of laser beam cutting, and a look ahead</b> <b>Dirk Petring (Fraunhofer ILT)</b>		
<b>CLOSING REMARKS</b>
